ABOUT ME

- Self-taught web developer specializing in scalable, user-focused web applications with 3 years of experience.
- Cybersecurity Enthusiast currently learning ethical hacking and penetration testing.
- Also work as a freelance developer, having delivered +4 client projects end-to-end.
- Strong problem-solving and collaboration skills, delivering impactful digital solutions.
- Participated in junctionXalgeirs 2025 and Hackwave2.0 hackathons.
- Experience in Agile development with kanban boards.

EXPERIENCE

FULL STACK DEVELOPER | TEMACINA.COM November 2025 – January 2026

Develop and maintain scalable web application using Next.js 15, TypeScript, and Express.js. Implement responsive UI components with Tailwind CSS and manage state across complex application flows. Integrate RESTful APIs and optimize application performance for production environments. Collaborate with cross-functional team to deliver end-to-end features.

FRONTEND DEVELOPER INTERN | ELLABS June 2025 – September 2025

Implemented pixel-perfect UI/UX designs from Figma for company landing page using modern frontend technologies. Ensured cross-browser compatibility and responsive design across all devices.

- [CasteHome](#)
- [Typing Battle](#)
- [Jewelry Store Dashboard](#)
- [Desktop App Door store Management](#)

LATEST PROJECTS

JSDJIJEL.COM (OFFICIAL WEBSITE OF JSD FC)

Built a full-scale digital platform for a professional football club, including dynamic match management, news publishing, player profiles, and a custom admin dashboard. Led end-to-end development using Next.js 15, TypeScript, Tailwind CSS, PostgreSQL (Drizzle ORM), NextAuth.js, and Dokploy for CI/CD and deployment. Integrated analytics, SEO optimization, and ensured a fully responsive, scalable, and secure production environment.

UNISTARTUPS — MASTER'S GRADUATION PROJECT

Led a 6-person team as Lead Developer and Project Manager to build multi-tenant SaaS platform for digitizing university incubator management in Algeria. Built with Next.js, NestJS, PostgreSQL, and Socket.io. Key features : project admission workflows, real-time messaging, RBAC (5 roles), multi-tenant isolation, Kanban boards , dual-channel notifications (in-app + email), appointment scheduling, training session management with QR attendance, project search with duplicate detection, public archive, bilingual Ar/Fr RTL, PWA support.

VOLUNTARY

Esperanza Club (Oct 2022 – April 2026)

Joined as a Content Creator and Photographer in 2022, creating media content and covering events. Became Vice President in early 2023 and later President, leading the team and organizing major events like Plus 2nd and Envision. In 2024 I served as IT Leader, managing the club's digital platforms ([Website](#)) and technical projects like [Jijel-univ Course-Hub](#).

SKILLS

FRONT-END

- HTML5-CSS3
- Typescript
- Javascript
- PWA
- React Query
- Tailwind CSS
- ReactJS
- NextJS
- Electron JS

BACK-END / DATABASE

- NodeJS
- Nest JS
- Express JS
- Django
- PostgreSQL
- MySQL
- Mongo DB

MORE

- Git/Github
- Docker
- CI/CD (Dokploy)
- WebSockets

SOFT SKILLS

- Problem-Solving
- Adaptability
- Collaboration
- Time Management
- Communication
- Attention to Detail
